Greetings from the East,

To start with I must say how honored I am to have been voted in as Master. Last year was a great year for Huntertown 689. Thank you to Kurt for an outstanding job in the East. Building on the great momentum that was created last year I hope to make this year a continuance of growth and great accomplishments. We have done a lot of travel and tried new events for fun activities with a lot of success. I invite all brothers of the Huntertown lodge to come and participate in our activity nights and days even if you can't make it to lodge. We are still meeting on the 1st Thursday of the month for our regular business meeting. As a reminder all committee chairmen need to have their reports in January. Also those members who have not paid their dues please get them sent right away.

This year we will be trying to have a fun activity or event around the 2nd Friday of each month. In January we will be having a game night with a carry-in dinner on Friday the 14th and I would love to see everyone bring their families. We have so many members that never attend any events due to time or whatever and I hope we can change that. I am making it my goal this year to try and talk to and hopefully meet every member of our lodge even if I have to go visit with them. We are all brothers of this great fraternity and you are not forgotten. I also invite any brothers and their families from the other lodges along with the Eastern Star, Demoley and Jobs Daughters.

The last change to our schedule for the year is that we are now going to be having a practice and education night every 4th Thursday of the month. I highly encourage that all officers and other members that want to learn more to participate. We will try to use this to encourage the ritualist program. On these nights we will try to focus on a different degree each month which then translates into each degree a quarter. Just remember that there is always new knowledge to be found in Masonry and I invite all brothers to come and help discover and share in the fellowship.

Fraternally

Phil Thomas
